Portfolio: rbel-crm-demo.vercel.app | https://mygems-bms.vercel.app

PROFESSIONAL SUMMARY

Backend-focused Software Engineer with 7 years of corporate development experience and ongoing freelance software development experience since 2021. Specializes in PHP, Laravel, CodeIgniter, MySQL, and PostgreSQL, with experience building, modernizing, and maintaining database-driven business applications.

Experienced in backend architecture, database design, REST API integrations, application optimization, automated testing, and production troubleshooting. Previously promoted to Senior PHP Developer, with responsibilities that included technical mentoring, code reviews, and development team coordination.

Recent projects include business management and client analytics platforms featuring third-party API integrations, background job processing, role-based access control, automated testing, and reporting capabilities. Uses AI-assisted development tools as part of the engineering workflow while maintaining responsibility for code quality, testing, and implementation decisions.

Currently pursuing further development in backend systems engineering, scalable architecture, cloud infrastructure, and AI-powered applications.

TECHNICAL SKILLS

Backend Development: PHP, Laravel, CodeIgniter, Python, Django, Java, MVC
Database Engineering: MySQL, PostgreSQL, Microsoft SQL Server, MongoDB, Database Design, SQL Optimization
API & Integration: REST APIs, OAuth, Third-Party API Integration
Frontend Development: JavaScript, TypeScript, React, Next.js, Inertia.js, HTML5, CSS3, Tailwind CSS, Bootstrap, jQuery
Testing & Quality: PHPUnit, Automated Testing, Code Review, Debugging, Performance Optimization
Tools & DevOps: Git, GitHub, SVN, Composer, npm, Node.js, Vite, Webpack, GitHub Actions
AI-Assisted Development: Claude Code, AI Coding Assistants, AI-Assisted Refactoring and Test Generation

PROJECTS

RBEL-CRM – Financial Advisor Client Management and Analytics | 2026
Laravel, PHP, MySQL, JavaScript, Vite
Live demo: https://rbel-crm-demo.vercel.app/

- Built a web-based CRM for financial advisors to manage clients, policies, policy owners, insureds and beneficiaries in one system.
- Designed the relational database schema linking clients, policies and beneficiary relationships.
- Created analytics dashboards that highlight daily follow-ups and accounts needing attention.
- Implemented role-based access control and a full audit trail of user actions.
- Deployed a public demo with seeded sample data on Vercel with a managed MySQL database.

MyGems BMS – Business Management System for an Online Design Studio | 2026
Laravel, PHP, React, TypeScript, Inertia.js, Tailwind CSS, MySQL
Live demo: https://mygems-bms.vercel.app

- Replaced spreadsheets for an online design studio with one system for sales, products, content planning, goals and scheduling.
- Integrated the Etsy API and Gmail through OAuth to import Etsy orders and Raket sales automatically every 15 minutes.
- Automated Facebook Page publishing with the Graph API: a whole month of posts is scheduled at once, sent through a background job queue, and retried on failure.
- Developed a design template pipeline (layout → mockup → post), sales analytics, and CSV import and export for sales, content plans and posting links.
- Wrote 20+ automated feature test suites covering the integrations, imports and permissions, run on every push with GitHub Actions.

PROFESSIONAL EXPERIENCE

IT Instructor
La Consolacion College - Daet, Inc. | July 2026 – Present

- Teach programming, web development, and data analysis courses covering PHP, MySQL, HTML, CSS, and JavaScript.
- Design hands-on coding exercises and application development projects, including database-driven web applications and dashboards.
- Teach responsible use of AI coding assistants for coding, debugging, documentation, and validating AI-generated output.

Freelance PHP / Web Developer
Freelance / Project-Based | 2021–Present

- Developed and maintained web applications using PHP, Laravel, MySQL, and related technologies.
- Implemented application features, database operations, and API integrations based on project requirements.
- Troubleshot issues, improved existing functionality, and supported application maintenance.
- Continued developing technical skills in modern web development and AI-assisted coding workflows.

Senior PHP Developer (2016 – 2021) | PHP Developer (2015 – 2016)
Leekie Enterprises, Inc. | 2015 – 2021

- Developed and maintained business applications using PHP, MySQL, JavaScript, jQuery, HTML, and CSS.
- Promoted to Senior PHP Developer in 2016, taking on additional responsibilities for task assignment, code reviews, and mentoring junior developers.
- Optimized SQL queries and application logic to improve system performance and reliability.
- Contributed to database design, application enhancements, and modernization of existing systems.
- Managed application patches and feature releases through development, LAB, and UAT environments before production deployment.
- Researched and evaluated technologies to improve development workflows and application capabilities.
- Received **Outstanding Performance Awards in 2019 and 2020.**

Software Engineer
ELRN Ventures | 2014 – 2015

- Built a client web application from the ground up using PHP and PostgreSQL.
- Designed the database schema and delivered enhancements based on client feedback.
- Presented deliverables directly to clients and handled post-deployment updates and support.

SPEAKING & TECHNICAL ENGAGEMENTS

Web Development Workshop Speaker
La Consolacion College - Daet, Inc. | August 2026

- Served as the technical speaker for a 3-day hands-on Web Development Workshop.
- Delivered sessions covering PHP, Laravel, database-driven web applications, HTML, CSS, JavaScript, and web development fundamentals.

- Conducted live demonstrations and guided participants through practical development exercises.
- Provided technical guidance and troubleshooting support during hands-on activities.

EDUCATION

Master in Information Technology (In Progress)
Mapua University | August 2026 – Present

Bachelor of Science in Information Technology
Manila Central University | 2009 – 2013

OTHER EXPERIENCE

Financial Consultant / Assistant Unit Manager | Pru Life UK | 2020 – Present

- Lead and mentor a team of 20+ financial consultants and manage a portfolio of 150+ clients; recognized for leadership and top performance.
